The Noctis Technologies AN/PVS-14 provides the user with state-of-the-art, Mil-Spec, lightweight monocular, incorporating customer specified image intensifier tubes. Noctis's rugged AN/PVS-14 monocular can be hand held, helmet mounted, head-strap mounted or weapon mounted.

KEY FEATURES INCLUDE:

- Automatic highlight cutoff
- Infrared illuminator
- IR-ON indicator
- Low voltage indicator
- Manual gain

Noctis's AN/PVS-14 monocular provides increased situational awareness and can be worn on the left or right eye. Designed to integrate tactical requirements with a more compact, balanced, and lightweight system, our monocular utilizes specially designed optics optimized for MX-11769 style image intensifiers in either green or white phosphor.

STRATEGIC ATTRIBUTES:

- Extremely rugged, lightweight, and balanced
- Advanced aesthetic high-speed, low-drag system design proven by the U.S. Army
- Dovetail interface to helmet mount and capable of mounting to other mounting interfaces
- Powered by a single, centrally weighted AA battery

STANDARD ACCESSORIES

- Head Mount Assembly
- Head/Helmet Mount Adapter
- Carry Case with Shoulder Strap
- Operator Manual
- Cleaning Kit

All components and accessories are manufactured, assembled, and tested in accordance with all applicable US Military specifications.
